

PARTNERS IS ROLLING OUT NEW PROGRAM OF WORK FOR 2025

We are working with NASA Stennis to develop a new model for the program of work for 2025. While plans are still in formation, we have made the decision that in lieu of the traditional Stennis Capitol Day (originally set for February 25-26) and Community Center Director's Briefing (generally held each March), we will expand our reach statewide and in Louisiana with a series of small meetings with elected officials, members of Partners and other key decision makers to communicate the importance of Stennis Space Center and the Michoud Assembly Facility to our citizens and our region as an economic driver.

These new meetings will be in a breakfast, lunch or dinner format and sponsorships will be available. While we are working on the dates and locations for these meetings, please consider how you would like to support these meetings. Seating will be limited but we believe the opportunities to connect will create a greater opportunity for all of us.

Below are the opportunities available for you to support, and we certainly hope you will. For any questions, please contact Tish Williams at tish@partnersforstennis.org or by phone at 228-216-9048. Or you may call the Partners office at 228-467-9048.
